

Learning by VG Academy – Course Overview

VGSTUDIO MAX Basic Training – Material

Thank you for your interest in our e-learning course! This document provides you with more detailed information on the course procedure as well as the timeline. Should you still have any questions regarding the course overview, please do not hesitate to contact us!

Training content is released every Monday. Once it has been released, you can work on it throughout the entire duration of the e-learning course. The approximate workload is 1-2 working days per week. This is based on the video run time and the individual review time. Participation in the live sessions is not included.
