

VG Academy

Train-the-Trainer Program Description

What?

A program for all employees of Volume Graphics partner companies to deliver VGSTUDIO MAX Local Trainings that are prepared and recognized by VG Academy.:

Participation Requirements

- Valid partner agreement with Volume Graphics
- Participation in a VG Academy training course (Basic Training Cast & Mold or Power Training) within the last 2 years before starting the authorization process.

Why?

Strengthen Your Customer Loyalty

Provide your end customers with all services from one source.

Support Your Locals

With the optional language pack, you can train your end customers in your local language using the training material VG Academy provides you with.

Boost Your Brand

Volume Graphics publishes a list of all partner companies with authorized trainers on its website promoting your services.

Increase Your Sales

Sell training courses independently of software and create additional after-sales opportunities for existing customers.

Stay Up to Date

Keep updated on brand new functionalities and important features in the software.

Train Your Staff

Authorized trainers may also give training courses to their colleagues and provide training certificates with all the benefits associated with them.

Professional Training Material

Work with high-quality training material provided and updated by VG Academy.

Stay in Touch

With VG Academy trainers who are experts in the software and can provide optimum support for your training sessions.

How?

- Take part in the online trainer certification with high-quality training material.
- For the authorization, conduct a VGSTUDIO MAX Local Training for evaluation purposes in front of VG Academy trainers and pass the final exam.
- Start delivering VGSTUDIO MAX Local Training courses recognized by VG Academy.

Stages of the Program

Initial Authorization

Start holding your own local trainings after the initial authorization

1. Online preparation period

3 months

2. Initial authorization at the VG Academy training center

Reauthorization

Online access to updates on software functions and updated training content for the duration of your authorization; working through this material is mandatory

3. Reauthorization (online)

1 year

4. Reauthorization (classroom) at VG Academy
