Volume Graphics User Group Meeting (UGM) 2019

Two-day conference from September 11 to 12, 2019 at the Print Media Academy Heidelberg

Be in the Know—With inspiring success stories, best practices, useful how-to presentations, and valuable networking, the Volume Graphics UGM is the opportunity to become part of the inner circle of NDT experts!

- > Informative presentations by Volume Graphics, guest speakers, and partners
- > Numerous opportunities for exchanging experiences and networking with other users
- > Volume Graphics software demo stations
- > Hardware partner exhibition
- > All-day catering as well as an evening event including dinner
- > Additional booking options: COMBO training courses in connection with participation in the UGM

Target audience

Current and potential users of industrial CT and Volume Graphics software in research, quality assurance, product development, and production

Package 1: Basic package, UGM ticket (access to the exhibition and to the presentations)

Event language: English
Event venue: Print Media Academy Heidelberg
Event hours: September 11, 2019 9:00 am until approximately 5:00 pm
September 12, 2019 8:30 am until approximately 3:00 pm

Two-day conference revolving around the software of choice for industrial computed tomography with exciting presentations, expert know-how, an exhibition, and networking opportunities

→ EUR 250/USD 350 (plus VAT, where applicable)*

Package 2: Boot Camp—Segmentation (only available with UGM participation)

Training language: English
September 10, 2019, 9 am to 4 pm, VG Academy

You'll learn how to reliably perform segmentation tasks on challenging data using VGSTUDIO MAX and how to get the most out of your data sets.

Content:

- > Gray value and shape-based segmentation
- > Tips and tricks for strategic approaches
- > Automated segmentation according to patterns
- > Solution strategies for frequent challenges

Target audience and admission requirements: Advanced users who are interested in the varied segmentation tools in VGSTUDIO MAX. In order to be able to fully understand and participate in the exercises featured in this course, previous participation in one of our Basic Training courses as well as experience with VGSTUDIO MAX is required.

→ EUR 880/USD 1,205 (plus VAT, where applicable)**

Package 3: Add-On Training—Reconstruction (only available with UGM participation)

Training language: English

September 13, 2019, 9 am to 2:30 pm, VG Academy

You'll learn how to optimize the reconstruction of your CT data and discover the workflows available for this in VGSTUDIO MAX.

Content:

- > Introduction to the user interface
- > Different reconstruction methods
- > Optimization of the image quality/correction mechanisms
- > Reproducibility and automation

Target audience and admission requirements: Experienced users who are interested in reconstruction methods in VGSTUDIO MAX. We recommend prior participation in the UGM presentation "X-Ray and CT Essentials, Tips and Tricks" held by Volume Graphics, as the add-on training builds on this knowledge.

→ EUR 745/USD 1,025 (plus VAT, where applicable)**

Package 4: Full package, Boot Camp—Segmentation + Add-On Training—Reconstruction (only available with UGM participation)

Training language: English

September 10–13, 2019, VG Academy and Print Media Academy

→ EUR 1,375/USD 1,880 (plus VAT, where applicable)**
