

Customers love our software.
You shape its future.

With a market share of around 80%, Volume Graphics holds a leading position in the industrial CT software industry, as recognized by the global business consulting firm Frost & Sullivan with the "2018 Global Industrial CT Software Market Leadership Award". Global customers, e.g., from the automotive, aerospace, and electronic industry use Volume Graphics software when it comes to quality assurance in product development and production.

Volume Graphics offers an innovative work environment in a rapidly growing company with an open corporate culture, room for creativity, and flat hierarchies. We are proud to offer all employees competitive remuneration and a modern workplace at an attractive location.

For our offices in Heidelberg, Germany, we are looking for a

User Experience Manager for CT Software (m/f/i)

Your Tasks

- > Analyze customer use cases and workflows
- > Continuously improve the usability of our software products in close coordination with product owners and development teams
- > Develop new UX concepts and support their agile implementation
- > Design wireframes and mockups
- > Plan and implement usability workshops and usability tests
- > Develop Usability Design Guidelines

Your Profile

- > Degree in a relevant technical field of study (e.g., mechanical engineering, physics, materials science) or in media design/computer science
- > Professional experience in the usability design of technical B2B software (e.g., CAD, CAE, image processing, measurement technology, material testing, data analysis)
- > Conceptual strength and creativity
- > Enthusiasm, perseverance, and team spirit
- > Fluent in German and English
- > Willingness to travel nationally and internationally

Please send your complete application including your salary expectations and earliest starting date as a PDF file to Ms. Caroline Mark at jobs@volumegraphics.com.
